JAI GUPTA

Bengaluru | jaigupta004@gmail.com | +91-7354668484 | github.com/jaigupta04 | jaigupta.me | linkedin.com/in/jaigupta04

PROFESSIONAL SUMMARY

Backend-focused Software Engineering candidate with **more than 1 year of experience** building **scalable APIs, real-time data processing systems**, and developer tools using **Node.js, Django,** and **PostgreSQL**. Developed NPM packages with active adoption and led **backend systems for production applications**. Proficient in AI-assisted development workflows using tools like **GitHub Copilot** and **Claude Code** to enhance productivity and code efficiency. Strong foundation in **distributed systems, cloud platforms,** and **database design**.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, C/C++, Java, Go, SQL
- **Frameworks & Libraries:** Node.js, Express.js, Django, React, Next.js, Vue.js, Flutter, Jest
- **Backend & Systems:** REST APIs, Webhooks, Real-time Data Processing, System Design
- **Cloud & DevOps:** Google Cloud Platform (GCP), AWS, Azure, Docker, Kubernetes, Firebase, Vercel
- **Databases:** PostgreSQL, MySQL, Firestore
- **Tools:** Postman, Git, Copilot, Claude Code, Cursor
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Cloud Computing

EXPERIENCE

Backend Engineer Intern

Happyfox | Bengaluru | January 2026 – Present

- Built a **Developer debugging dashboard** for voice-based systems handling **100s of daily calls**, improving issue diagnosis efficiency by transforming raw event logs into **structured, actionable insights**
- Designed and implemented a **webhook-based data ingestion system** to process real-time event streams from Twilio
- Developed backend services using **Django + PostgreSQL** to store, analyse, and structure call event data
- Built an interactive frontend using **React**, enabling developers to visualize call flows and debug failures faster

Software Developer Intern

Zero65 Technologies | Remote | September 2023 – September 2024 | GitHub Organization

Open Source Contributions (NPM packages)

- Developed and published **2 open source NPM packages from scratch** with reusable, modular architecture enabling seamless integration across Node.js applications, achieving **100+ weekly downloads**
- Built **indian-stock-market** package to provide trading schedules, expiry dates, and market timings of **National Stock Exchange**
- Created **storage abstraction library** integrating local file systems with **Google Cloud Storage (GCS)**, including caching support
- Implemented **comprehensive unit testing (Jest)** ensuring reliability and maintainability

Product Development (Finance Tracker)

- Led backend development for a **financial management platform** supporting **50+ users** and **5+ small businesses**
- Designed and implemented **RESTful APIs**, secure transaction flows, and data processing pipelines
- Contributed to frontend features using **Vue.js**, improving user interaction and usability

PROJECTS

Teleora – Cloud Storage via Telegram API | Live Preview | GitHub

- Built a **cloud-based file storage system** leveraging Telegram's infrastructure for scalable storage, enabling users to store, organize, and access files seamlessly through Telegram
- Designed backend services using **Node.js & Express.js** for file management and retrieval
- Integrated **Firebase + Next.js** for authentication and user interface

AI-Powered GitHub README Generator | Live Preview | GitHub

- Developed a tool that generates **complete project README** by analysing codebase, improving developer productivity by automating documentation workflows
- Implemented backend logic in **Node.js** to process repository structure and generate structured README content using **Gemini API**
- Integrated **Firebase + Vue.js** for authentication and user interface

EDUCATION

- **B.E. in Information Science & Engineering** from B.M.S. College of Engineering, Bengaluru, VTU with CGPA 9.13/10 in 2026
- **Senior Secondary (Class XII)** from Macro Vision Academy, Burhanpur with 96%, CBSE
- **Secondary (Class X)** from Macro Vision Academy, Burhanpur with 95.8%, CBSE

CERTIFICATIONS & PUBLICATIONS

- Google Cloud Cybersecurity Certificate – Google Cloud
- Introduction to Generative AI & Prompt Design in Vertex AI – Google Cloud
- Automation Developer Associate – UiPath
- Haptic Feedback Shoes for Navigation – Research Paper

LEADERSHIP & ACTIVITIES

- **Web3 Community Head**, BMSCE IIC – Organized and led events promoting Web3 adoption and technical awareness
- **Web Developer & Event Coordinator**, SANKHYOTSAV – Built event website and coordinated activities to improve student engagement
